COMPANY PROFILE

# OVERVIEW

Priniu Energy –The fastest growing indigenous Service Company, was established in June 2016 to provide Oilfield Services to the upstream industry in Africa. Our growth is driven by good corporate governance, pivotal partnership, good client relations and best-in-class technology.

Priniu Energy has grown from a company with a mono-product business line, to a company providing multiple Oilfield Services in more than five African countries. Great emphasis is placed on delivering timely, cost-effective and high quality services. The board of Priniu Energy comprises well-placed individuals with extensive executive experience, manifesting in the emergence of a preferred service provider.

**100%** RELIABILITY

We go the extra mile to give the best of services to our amiable clients

**24/7** AVAILABILTY

We are always ready to be reached by you.  
We swing into action immediately.

COMPANY PROFILE

# OUR CORE VALUES

## **Timely Delivery of Service:**

We prioritize speed and efficiency in everything we do. By responding promptly and executing tasks on schedule, we ensure that every client receives dependable and timely real estate solutions.

## **Dignity and Trust**

We treat every client with respect and honesty, fostering relationships built on transparency and integrity. Your trust is our foundation, and we work hard to earn it with every interaction.

## **Cost-Effective Delivery**

We deliver high-quality real estate services at competitive prices. Through smart planning and efficient execution, we help clients achieve their goals while maximizing value and minimizing costs.

## **OUR MISION**

To maintain, as the cornerstone of our business, the health and safety of our employees and the protection of the Environment.

## **OUR VISION**

To be the leading Drilling Services Solution provider in our areas of operation.

A grayscale background image of an industrial facility, likely an oil or gas processing plant. The image shows a complex network of pipes, metal structures, and large cylindrical tanks. The lighting is somewhat dim, with some bright spots that could be lights or reflections. The overall tone is industrial and technical.

# CASED AND OPEN HOLE ELECTRIC WIRELINE SERVICES

OUR CORE SERVICES

## **CASED AND OPEN HOLE ELECTRIC WIRELINE SERVICES**

At Pinui Energy, we deliver reliable and precise Cased and Open Hole Electric Wireline Services designed to support safe, efficient, and successful well operations. With cutting-edge tools, experienced engineers, and a commitment to operational excellence, we provide accurate downhole data that empowers our clients to make informed decisions at every stage of the well lifecycle.

Our wireline solutions offer:

- Advanced logging for formation evaluation
- Real-time data acquisition and interpretation
- Cement bond evaluation and casing integrity checks
- Perforating and production enhancement services
- Completion support in both cased and open hole environments
- 

We prioritize safety, accuracy, and timely execution on every job. Whether it's formation assessment, well diagnostics, or completion support, [Your Company Name] ensures seamless delivery through modern technology and a team that understands the critical demands of today's oilfield operations.

Our goal is simple: to provide dependable wireline services that add value, reduce operational risk, and help you achieve optimal well performance.

**SLICKLINE  
SERVICES**

OUR CORE SERVICES

## SLICKLINE SERVICES

At Pinui Energy,, our Slickline Services are designed to deliver safe, precise, and efficient well interventions that support optimal well performance throughout the production lifecycle. With advanced equipment and highly skilled slickline specialists, we provide accurate mechanical and data-driven solutions that help maintain, diagnose, and optimize your wells.

Our slickline operations include:

- Routine well maintenance such as gauge cutting, paraffin removal, and drift runs
- Setting and retrieval of downhole tools including plugs, valves, and flow-control devices
- Wellbore cleanout and fishing operations
- Bottom-hole pressure and temperature surveys
- Valve shifting and completion support
- Memory logging and downhole data acquisition
- 

We operate with a strict commitment to safety, reliability, and timely execution, ensuring minimal downtime and maximum efficiency on every job. Whether for routine maintenance or critical intervention, [Your Company Name] delivers slickline solutions that keep your wells productive, stable, and operational.

OUR CORE SERVICES

## **COMPLETION AND PRODUCTION SERVICES**

At Pinui Energy, our Completion and Production Services are designed to optimize well productivity and ensure smooth, efficient operations from completion to full-scale production. By combining advanced technology, skilled personnel, and proven processes, we deliver solutions that maximize output while minimizing operational risks.

We are committed to delivering safe, reliable, and cost-effective completion and production services, ensuring every well achieves its full potential while maintaining the highest industry standards.

A photograph of an industrial facility at night, illuminated by blue and white lights. The scene shows a complex network of pipes, metal structures, and large cylindrical tanks. The sky is dark blue, and the overall atmosphere is industrial and modern.

# **INTEGRATED PROJECT MANAGEMENT SERVICE**

OUR CORE SERVICES

## **INTEGRATED PROJECT MANAGEMENT SERVICE**

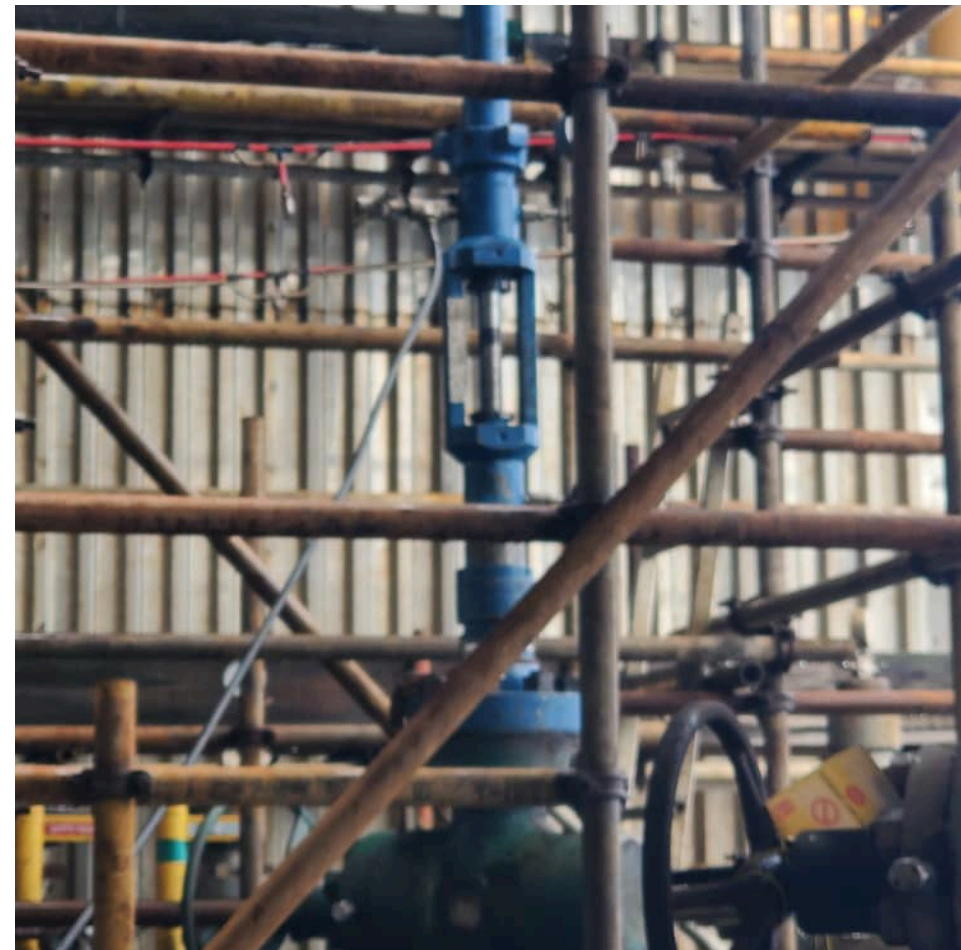

At Pinui Energy, our Integrated Project Management Services ensure that complex energy projects are delivered on time, within budget, and to the highest quality standards. By combining technical expertise, experienced personnel, and proven project management methodologies, we provide end-to-end oversight across every phase of your project.

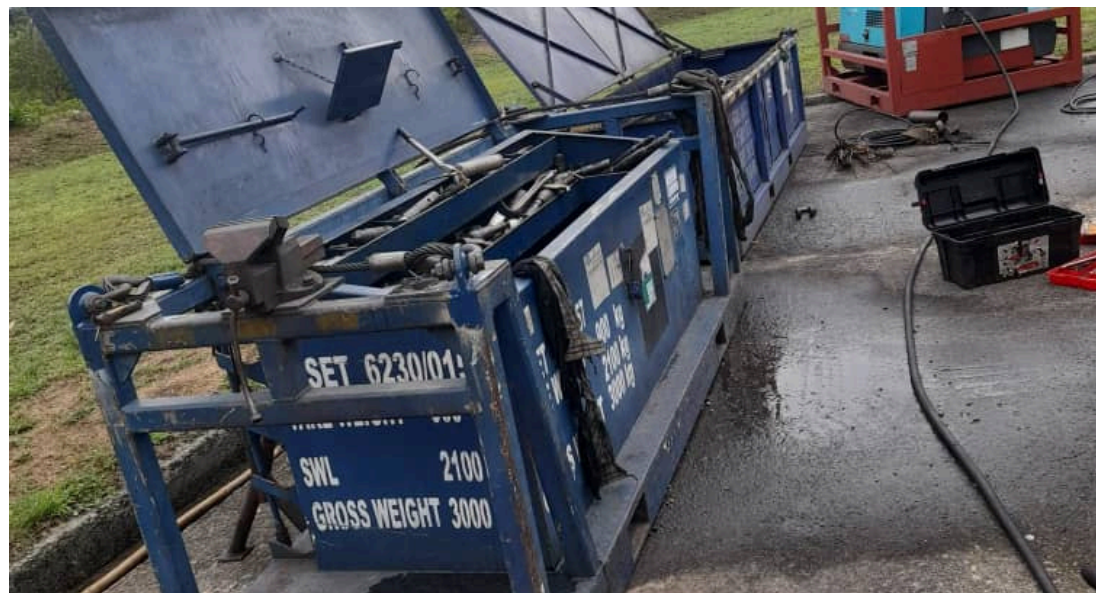

With our integrated approach, we streamline operations, reduce delays, and ensure that every project is executed safely, efficiently, and successfully, delivering maximum value to our clients.
